#### DETAILED ACTION

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.

2. Claims 1-4 stand rejected under 35 U.S.C. § 103(a) as being unpatentable over U.S. Patent No. 5,962,320 in view of U.S. Patent No. 5,591,625, for the reasons of record as set forth in Paper No. 8, mailed 7/5/00.

Applicant's arguments, filed 1/02/01, have been fully considered but have not been found convincing. Applicant argues that the '320 patent does not suggest using the cells of the '625 patent in the method of the prior art teachings. However, it is the teaching of the '625 patent, i.e. flexibility of manipulation, advantageous growth characteristics, etc., that provides the motivation to combine the references, see the previous Office action. Applicant further argues that additional characterization identifying additional desirable properties, i.e. an additional T cell inhibitory property, of the mesenchymal stem cells, of the '625 patent lends patentable weight to the method of the instant claims. However, said additional characterization does not add patentable weight to the method of the instant claims because sufficient motivation to combine had already been established.

3. Claims 1-4 stand rejected under 35 U.S.C. § 103(a) as being unpatentable over U.S. Patent No. 5,747,299 in view of U.S. Patent No. 5,591,625, for the reasons of record as set forth in Paper No. 8, mailed 7/5/00.

Applicant's arguments, filed 1/02/01, have been fully considered but have not been found convincing. Applicant argues that the '299 patent does not suggest using the cells of the '625 patent in the method of the prior art teachings. However, it is the teaching of the '625 patent that provides the motivation to combine the references, see the previous Office action. See paragraph 2, supra, for response to arguments regarding additional characterization of mesenchymal stem cells.

4. No claim is allowed.

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Dr. Gerald Ewoldt whose telephone number is (703) 308-9805. The examiner can normally be reached Monday through Thursday from 8:00 am to 5:30 pm. A message may be left on the examiner's voice mail service. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Christina Chan can be reached on (703) 308-3973. Any inquiry of a general nature or relating to the status of this application should be directed to the Technology Center 1600 receptionist whose telephone number is (703) 308-0196.

Papers related to this application may be submitted to Technology Center 1600 by facsimile transmission. Papers should be faxed to Technology Center 1600 via the PTO Fax Center located in Crystal Mall 1. The faxing of such papers must conform with the notice published in the Official Gazette, 1096 OG 30 (November 15, 1989). The CM1 Fax Center telephone number is (703) 305-3014.
